**HAWAII SURE TO HAVE  
MILITARY DEPARTMENT**

According to word from Washington,  
Major-General Arthur Murray was re-  
lieved from duty on the general staff  
August 10. He will assume command  
of the Western Division. Major-Gen-  
eral William W. Witherspoon will be  
detached to temporarily fulfill the spe-  
cial duties originally planned for Gen-  
eral Murray on the general staff, but  
which had to be taken from him when  
the decision was reached to create a  
department of Hawaii and place the  
Canal one under the Western Division,  
as it was found necessary to send him  
to his new post sooner than was ex-  
pected. Murray expected to take up  
his special duties, upon the granting of  
relief, as acting assistant chief of staff.  
The creation of the Hawaiian de-  
partment will take place immediately.  
The Panama department can not be-  
come a reality until later. The de-  
partment, when fully organized, known  
as the Panama Zone, with its great  
fortifications, is included in the West-  
ern Division, and General Murray will  
have the largest and most important  
commands in the army. Besides or-  
ganizing troops and arranging posts  
for the Panama Zone, he will have to  
settle many delicate military questions  
in regard to the Hawaiian situation.  
The Western addition will probably  
have more troops, outside of the Phil-  
ippine Division, than any territorial di-  
vision in the army. It will also have  
one more department than any terri-  
torial division.

**POLICE COURT NOTES.**

Joe Vivas, who has been under in-  
vestigation by Chief of Detectives  
McDonnell on several complaints pre-  
ferred against him by different people,  
was in police court this morning,  
charged with three charges of larceny.  
In each of those cases, the defendant  
waived examination, and was there-  
fore committed to the grand jury for  
further investigation. It is expected  
that indictments will be brought  
against him by the grand jury.

Dr. F. L. Morong, who was arrested  
for heedlessly driving his machine in  
a public street, appeared before Judge  
Monsarrat and had his case stricken  
from the calendar. Ah Sing, the Chi-  
nese gambler, who was present at a  
gambling game which was being  
carried on Paunah street, was fined  
fifty dollars and costs of court. C. P.  
Chillingworth put up a strenuous  
fight this morning on behalf of his  
client, but to no avail.

Ishiooka and Chum Qual respective-  
ly, Japanese and Chinese, were pre-  
sent in court today to answer to the  
charge of violating the harbor regu-  
lations. The police claim that they  
caught fish in the harbor. Their cases  
were postponed for one month.

George Kwakko, who, it is claim-  
ed, granted a marriage license with-  
out authority by law was also in court.  
His case was not called this fore-  
noon.

Rebecca Uili and D. M. Kualii, who,  
the police alleged, as having obtained  
money from different people on false  
pretences were in court today, but  
up to the noon hour, their cases had  
not been called.

Tong Young, charged with assault  
and battery was let go by Judge Mon-  
sarrat as the prosecution failed to  
prove his guilt to the satisfaction of  
the court. Henry Allen, who con-  
sumed more intoxicated drinks than  
he could carry, had his sentence sus-  
pended for a few months. He prom-  
ised to keep away from "booze."

The most violent scene of the Ca-  
morrist trial to date was provoked by  
a personal dispute between Captain  
Fabroni and Lawyer Lloy. In the tu-  
mult created all the other lawyers fled  
from the room. Enrico Alfano and Gen-  
aro Abbatemaggio, the informer, were  
thrown out bodily by the carabinieri.  
Giovanni Bartolozzi fell in a fit and  
President Bianchi, helpless to maintain  
order, declared the session adjourned.

**NATIONAL GUARD TO HAVE  
INSPECTOR-INSTRUCTOR**

Governor Frear received word yes-  
terday of the appointment of First  
Lieutenant Walter H. Johnson, Eighth  
Infantry, U. S. A., as inspector-in-  
structor of the national guard, under  
the provisions of the act of Congress  
approved March 3.

Lieutenant Johnson will report to  
Governor Frear for duty.

According to another order received  
yesterday, a few cadets who have  
graduated from West Point were as-  
signed to companies connected with  
Hawaii. Those named are Cadet  
Charles Philip Hall, to the Twentieth  
Infantry; Cadet Leo Gerald Hefferman,  
to the Fifth Cavalry; Cadet Sidney  
Herbert Foster, to the Second Infan-  
try.

The assigned officers will arrive on  
the October transport.

**CHARGE INTER-ISLAND  
STEWARDS SOLD BOOZE**

An important trial in police court  
this morning was that of Lum Tai,  
chief steward of the Inter-Island  
steamer W. G. Hall, charged with the  
illegal sale of liquor on board the  
steamer. Liquor Inspector Pennell  
stated in his complaint that the de-  
fendant sold beer, wine, gin and other  
intoxicating liquor to Lul, the principal  
witness for the prosecution.

Lum Tai was tried on a similar  
charge before Judge Monsarrat pre-  
viously and was at that time convicted  
and sentenced to pay a fine of \$100 and  
costs of court. Lum stated on the stand  
this morning that he bought liquor  
from the defendant on several occa-  
sions, and that many other persons  
witnessed the transactions.

The trial was continued to 2 o'clock  
this afternoon.

**SCIENCE FINDS WAY  
FOR LIFE PROBLEM.**

Water Purification Reduces In-  
fant Mortality One-Third.

HAMBURG, Aug. 15.—Scientists in  
Germany and throughout Europe are  
surprised at the results following the  
purification of the water supply of  
Hamburg. It was expected to elimi-  
nate typhoid. It did not accomplish  
that result, but it reduced instead the  
infant mortality one-third or more. The  
latest word from America, especially  
from the city of Washington, confirms  
the observations made here, namely,  
that purification of the water, what-  
ever other good it may accomplish,  
will not banish typhoid. That protean  
disease appears to attack a community  
through many other channels and its  
elimination remains a puzzling prob-  
lem for science to deal with.

There is great rejoicing among san-  
itarious over the unexpected effect of  
water purification in saving infant life.  
Owing to the radical differences among  
public health authorities in Europe and  
America on the question of pasteurized  
milk, all classes of officials are hailing  
water purification as a measure of re-  
lief on which all factions can unite.  
It is now generally admitted that the  
milk question had been agitated every-  
where to such an extent as to distract  
expert attention from the other sources  
of sickness and disease in cities and  
towns.

In Hamburg, by water purification,  
the infant death rate has been reduced  
from 495 per 1000 births to 240 per  
1000 births. In a city like New York,  
where there are 2000 births a week,  
this would mean a saving of the lives  
of more than 17,000 infants a year.

"I killed my wife, and I believe I  
got her grandmother; I did a good job  
and I am willing to die for it," said  
Emmet Yeagley, 25 years old, who shot  
and killed his 16-year-old wife of four  
months and fatally injured her grand-  
mother, Mrs. Nell Pierce, 56 years old,  
at their home in Jackson, Miss. He  
claims his wife is unfaithful.

**RECREATIONS**

**WOMAN TO SHOW  
AS HYPNOTIST**

The only woman hypnotist in the  
world, Ayesha, and Barnett, "the man  
with the green eyes," described as the  
world's greatest hypnotists, will com-  
mence a season at the Orpheum Mon-  
day night.

While in India these people spent  
some time amongst the Hindoo adepts,  
from whom they have gathered many  
hitherto unknown secrets which will  
be applied in their performances here,  
which from the reputation they have  
in the Orient, should prove highly  
amusing and instructive.

The greater part of the entertain-  
ment is devoted to comedy. Several  
mystifying scientific tests will be made  
which should be of exceptional inter-  
est, including the Hindoo Sleep, Blind-  
fold Drive, the Human Woodpile and  
the Great Rock-breaking Test.

A report from Colombo reads:  
"Ayesha and Barnett, the hypnot-  
ists, opened their second season here  
last night when they were greeted by  
a large and enthusiastic audience, who  
were not slow in showing their appre-  
ciation of the comedy provided. A  
new feature which has been added to  
the performance is termed the Hindoo  
Sleep, in which while seated on the  
stage, Ayesha, to the accompaniment  
of slow dreamy music, succeeded in  
putting into a sound sleep several  
members of the audience, who were  
afterward awakened from the stage.  
The performances will be continued  
throughout the week and are well  
worth seeing more than once."

Seats for the performances may be  
booked at the Orpheum, where the  
plan will open tomorrow morning.

**BAND CONCERT.**

The Hawaiian band will give a public  
concert this evening at 7:30 o'clock at  
the Young Hotel roof garden. The  
program follows:

March—El Capitan..... Sousa  
Overture—Rosa Rondo..... Schubert  
Chorus—Tannhauser..... Wagner  
Selection—Il Trovatore..... Verdi  
Vocal—Hawaiian Songs, Ar. by Berger  
Selection—The Rose of Shiraz.....  
..... Ellenberg  
Gavotte—Rhine Sounds..... Latan  
March—Thunderer..... Sousa  
The Star Spangled Banner.

**MILLIONS OF BIRDS  
LIVE ON LAYSAN**

CHICAGO, Ill., Aug. 8.—Charles A.  
Corwin of the Field Museum of Nat-  
ural History has returned to Chicago  
from a trip to Laysan Island, in the  
middle of the Pacific Ocean, on which  
exist no living creatures except sea  
birds.

"It has been established that the is-  
land is inhabited by at least 8,000,000  
birds, most of which consist of two  
species of albatross," said Mr. Corwin  
yesterday. "There were so many birds  
on the ground, nesting, that we had  
to pick our way through to avoid step-  
ping on them."

"The island is only two miles long  
and a mile wide. In the center is a  
lagoon of about 200 acres. The rocks  
that shelve in this lagoon are thickly  
populated with a species of love bird.

"We can fully verify the stories that  
these strange birds have a peculiar  
dance that resembles the cakewalk.  
They clap their bills together and wad-  
dle about with high stepping antics,  
ducking their heads first under one  
wing, then under the other. All  
through the dance they whistle and ut-  
ter weird sounds."
